

COMPETITION BRIEF:

THE PROJECT

SUBIS Bhopal invites Architectural students and young professionals for architectural design ideas for Various Built Mass and landscape areas at its campus spread over an area measuring 40 hectares at village Salamatpur, Tehsil Huzur, District Raisen. The proposed design should strive to use alternate energy sources. The existing landscapes & silhouettes should be respected & magnified. The entire campus should esthetically incorporate various features of architecture & sculpture of various Buddhist & Indic societies & civilizations from across the world.

The Location of Proposed Site

The campus site comprising of 40 Hectares area is located at village Dhakna-Chapna near Salamatpur, District Raisen, just 45 kms from Bhopal at Bhopal-Sanchi road.

The total campus area is divided into four sites. The participant has liberty to choose any site pertaining to any of the design requirement.

SITE SELECTION:

The participants have liberty to choose any of the given sites and accommodate any of the given requirements. The participant shall justify the site selection through their design and creativity. If any of the participants feels that the requirement can be better accommodated at other location than given site, they are free to choose within the total site.
